

SKINTOP® DIX-M

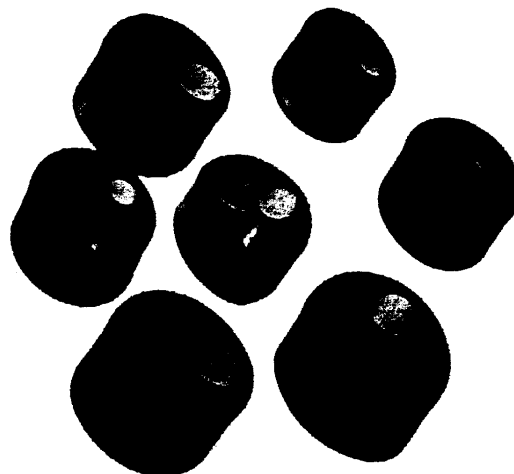

Multiple sealing insert for SKINTOP® cable glands in metric style

SKINTOP® DIX-M Multiple sealing insert

Another constituent of the SKINTOP® range is the multiple sealing insert DIX-M which makes the SKINTOP® gland a multiple gland. Instead of normal or reduction sealing inserts, a sealing with several drill holes is used. SKINTOP® DIX-M sealing rings allow several cables

to be lead through one gland simultaneously. Since this way, it becomes unnecessary to use a gland for each cable, it is possible to reduce the size of parts. SKINTOP® DIX-M allows a more compact line of cables in one direction.

Technical Data

Material: NBR

Protection class: IP 54

Note:
Special shapes on request

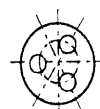

Temperature range:
-30 °C to +100 °C
static: -40 °C to +100 °C
