

5V R/W Preamplifier for 3 Terminal Recording Heads, 2 or 4 Channels

GENERAL DESCRIPTION

The XR-505 is a monolithic disk drive integrated circuit providing read mode preamplification, write current control, and head selection. It requires a single +5V power supply and consumes far less power than similar devices.

Up to four read/write heads can be switched with one device; multiple devices are cascadable. A low noise read signal preamplifier provides two user selectable gain levels.

All digital controls are TTL compatible. The XR-505 is available in 16, 20 and 24 pin SO packages. A 24 Pin DIP version is available for evaluation.

FEATURES

- Complete Head Interface Functions, Read and Write
- Low Power, Single +5V Operation
- High Bandwidth and Dynamic Range
- Low Noise Preamplifier
- Error Preventing Power Monitor
- Pinout Designed for Layout Ease
- Digitally Selectable Preamplifier Gain
- Digitally Selectable Write Current

APPLICATIONS

- Battery operated Winchester disk drives
- Low power disk drives
- High density floppy disk drives
- Digital tape drives
- Dedicated servo read/write

ABSOLUTE MAXIMUM RATINGS

V_{CC}	8 Volts
Digital Inputs	-0.3V to V_{CC} +0.3V
Write Current	70mA
Junction Temperature	150°C
Storage Temperature	-65°C to +150°C

SYSTEM DESCRIPTION

The XR-505 is a low power four channel Winchester Disk Drive Read/Write Amplifier ideally suited for laptop computer system drives and other applications where power consumption is important. Similar in function to other Exar Read/Write amplifiers, the XR-505 provides

equivalent or superior performance at one-fourth the power consumption and requires only a single +5V power supply.

The read preamplifier section consists of a 55MHz bandwidth 1nV/ Hz noise level differential amplifier. Preamplifier gain of either 100 V/V or 200 V/V is digitally selectable. The write driver controls up to 50mA of write current. A full featured power monitor circuit positively disables write mode operation during low voltage fault conditions to preserve data integrity.
