

HALOPAR® HALOGEN REFLECTOR LAMPS

Lamp
reference

HALOPAR® HALOGEN REFLECTOR LAMPS FOR MAINS VOLTAGE

OSRAM HALOPAR®
is the bright alter-
native to conventio-
nal reflector lamps.

HALOPAR® 16 ALUMINIUM REFLECTOR

• Simple mains operation, no transformer required
• Brilliant white halogen light in two beam angles for
• Up to 35% higher luminous intensity than conven-
• tional reflector lamps
• 15% energy savings
• Available

- 2000h lamp life
- Faceted reflector with clear shield
- For heat sensitive objects, special versions with dichroic reflectors allow two-thirds of the thermal radiation to pass backwards
- Colour temperature 2900K
- Integrated fuse system

Available in 240V
