

## Tooling

### ST120957

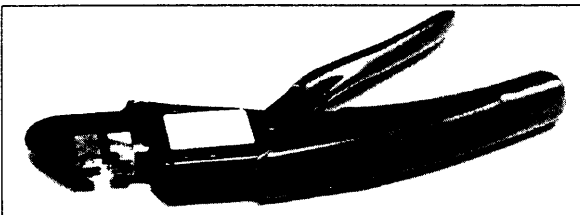

The Greenpar coaxial wirestripper is suitable for cable diameters of 2.5mm to 7.6mm, producing strip lengths suitable for most Greenpar connectors. It is supplied complete with one stripping cassette, four 'V' blocks, one adjustment hex key and an instruction sheet, all housed in a compact protective wallet. Replacement stripping cassettes/'V' blocks are available. Contact Greenpar for details.

### G30040

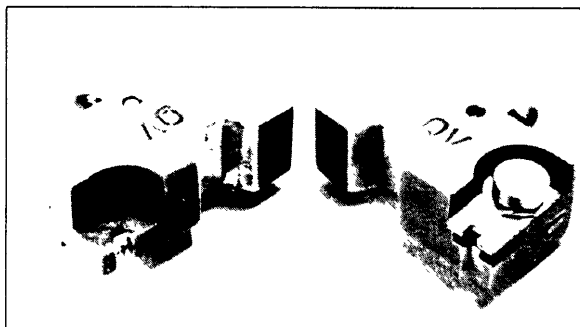

This ratchet-controlled, fixed die, sub-miniature hand tool crimps the centre contact and crimp sleeve in separate operations. It is suitable for use with the following cable groups:-

010	A25	D25	060	B10
012	B25	A52	339	
022	C25	B52	344	

### G30039 (supplied without dies)

Heavy-duty ratchet-controlled hand tool, with interchangeable dies. This rigid tool is suitable for most connector series by means of its interchangeable die capability. G30039 is supplied without dies; for details of dies required for BNC connectors see table below:-

Cable Group	Die Set	BS Ref	Cable Group	Die Set	BS Ref
007	30032XAHZH	WG	B35	30032XAXED	WC
010	30032XAHFD	WD	060	30032XAHFD	WD
