Multi-purpose Medical Filter for Power Line Noise Protection with Limited Leakage Current

MV Series

Electronics

₹ Tyco

UL Recognized CSA Certified VDE Approved

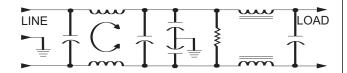

MV Series

The MV series answers the need for a medical filter to help equipment comply with increasing noise sources in medical applications while still meeting leakage current requirements of UL2601.

Less strict than previous UL medical standards, UL2601 limits leakage current for patient care equipment. Due to the increased need for higher performance filtering, UL has allowed more leakage current than in previous standards.

The MV takes advantage of this to offer improved line-toground performance in a moderately priced filter. Higher line-to-line performance is achieved through its additional differential mode rod inductors. Overall, the filter provides a good solution to emission and immunity problems, at a moderate cost, in a reasonable package size.

Electrical Schematic

Resistor location for reference only.

3A, 6A, 10A

Specifications

Maximum leakage current,each line-to-ground

| @ 120 VAC 60 Hz: | .07 mA |
|--|----------------------|
| @ 250 VAC 50 Hz: | .13 mA |
| Hipot rating (one minute): line-to-ground line-to-line | 2250 VDC 1450 VDC |
| Operating frequency: | 50/60 Hz |
| Rated voltage (max.): | 250 VAC |
| Rated current: | |
| 3MV | 3A |
| 6MV | 6A |
| 10MV | 10A |
| 20MV | 20A |

Minimum insertion loss in dB:

Line-to-ground in 50 ohm circuit

| Current | Frequency-MHz | | | | | | | |
