ESCC (·e) 4001/023 Qualified High Precision (5 ppm, 0.01 %), Thin Film Chip Resistors

Vishay Sfernice Thin Film division holds ESCC QML qualification (ESCC technology flow qualification).

These High-Rel. components are ideal for low noise and precision applications, superior stability, low temperature coefficient of resistance, and low voltage coefficient, Vishay Sfernice's precision thin film wraparound resistors exceed requirements of MIL-PRF-55342G characteristics Y (± 10 ppm/°C).

FEATURES

HALOGEN FREE

- Load life stability at ± 70 °C for 2000 h: 0.15 % under Pn
- Low temperature coefficient down to ± 5 ppm/°C
- Very low noise (< - 35 dB) and voltage coefficient (< 0.01 ppm/V)
- Resistance range: 10 Ω to 3 MΩ (depending on size)
- Laser trimmed tolerances to ± 0.01 %
- TCR in lot tracking ≤ 5 ppm/°C
- Termination: Thin film technology
- SnPb terminations over nickel barrier
- ESCC 4001 (generic specifications)
- ESCC 4001/023 (detailed specifications)
- ESCC qualified
- SMD wraparound chip resistor
- Operating temperature range: - 65 °C to + 155 °C
- From 0402 to 2010
- Material categorization: For definitions of compliance please see www.vishay.com/doc?99912

STANDARD ELECTRICAL SPECIFICATIONS

MODEL	SIZE	ESCC VARIANT NUMBER	RESISTANCE RANGE Ω	RATED POWER AT + 70 °C (Pn) W (1)	LIMITING ELEMENT VOLTAGE (UL) V (1)	INSULATION VOLTAGE (U_i) V	TOLERANCE ± %	TEMPERATURE COEFFICIENT ± ppm/°C
PHR 0402 (2)	0402	13 and 14	10 to 150K	0.05	30	50	0.01, 0.02, 0.05, 0.1	5, 10, 25

Notes

(1) PHR 0402: Qualification ongoing.

(2) Limiting voltages and power rating are already derated (for maximum ratings admissible, refer to P chip: www.vishay.com/cod?53017).

CLIMATIC SPECIFICATIONS

Operating temperature range	- 65 °C; + 155 °C
Soldering temperature (T_{sol})	260 °C, immersion 10 s

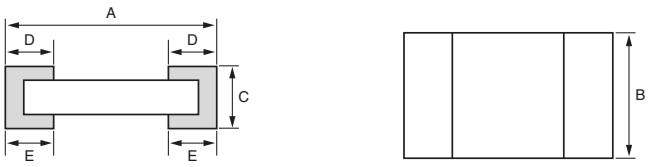
MECHANICAL SPECIFICATIONS

Substrate material	Alumina
Technology	Thin Film
Film	**Nickel Chromium** with mineral passivation
Protection	Epoxy and silicone
Terminations	**B type:** SnPb over nickel barrier for solder reflow (3) **G type:** Gold

Note

(3) For B terminations use recommended reflow profile #1 as per Application Note "Guidelines for Vishay Sfernice Resistive and Inductive Components" (document number: 52029)

DIMENSIONS in millimeters



VARIANT NUMBER	STYLE	DIMENSIONS							
		A		B		C		D/E	
		MIN.	MAX.	MIN.	MAX.	MIN.	MAX.	MIN.	MAX.
01, 05	0603	1.368	1.672	0.723	0.977	0.373	0.627	0.25	0.51
02, 06	0805	1.758	2.062	1.143	1.397	0.373	0.627	0.25	0.51
03, 07	1206	2.908	3.212	1.473	1.727	0.373	0.627	0.27	0.53
04, 08	2010	4.898	5.232	2.413	2.667	0.373	0.627	0.35	0.61
13, 14	0402	0.848	1.152	0.473	0.727	0.373	0.627	0.15	0.35

NOTION OF SINGLE LOT

The homogeneity of lots is given by the front end lot numbers (primary process lot) and not by the date code.
The date code is applied after completion of end of production testing. Parts coming from different lots might have same date code. A customer who needs lot homogeneity should mention on his order: SINGLE PRODUCTION LOT

END OF PRODUCTION TESTING

Mandatory testing performed at the end of the production process:
- 100 % overload: Voltage $\sqrt{(6.25 \text{ Pn x Rn})}$ or 2 UL whichever is less - duration 2 s
- 100 % burn in: 168 h at Pn at 70 °C

OPTIONS

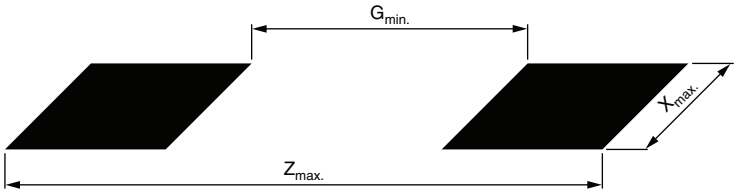
LOT VALIDATION TESTING

For procurement of qualified components, lot validation testing is not required and shall only be performed if specifically stipulated in the purchase order.
For procurement of unqualified components, lot validation testing shall be performed as stipulated in the purchase order. The need for lot validation testing shall be determined by the orderer.
When lot validation testing is required, it shall consist of the performance of one or more of the tests or subgroup test sequences of chart F4 indicated in the ESA Generic Specification ESCC 4001. The testing to be performed and the sample size shall be as stipulated in the purchase order. When procurement of more than one component type is involved from a family, range or series, the selection of representative samples shall also be stipulated in the purchase order.
Lot validation testing will be composed of one LVT charges and LVT samples:
- Lot validation test charges has to be ordered separately on purchase order.
- Lot validation samples have to be ordered separately on purchase orderer.

FINAL INSPECTION

If requested by the orderer a final inspection can be performed on site.
Final inspection has to be stipulated separately on purchase order.

LAND PATTERN in millimeters



CHIP SIZE	$Z_{max.}$	$G_{min.}$	$X_{max.}$
0402	1.55	0.15	0.73
0603	2.37	0.35	0.98
0705/0805	2.76	0.74	1.40
1206	3.91	1.85	1.73
2010	5.93	3.71	2.67

Note

- Suggested land pattern: According to IPC-7351A

QUALIFIED OHMIC RANGE (1)			
MODEL	ESCC VARIANT	OHMIC RANGE (Ω)	TOLERANCE (%)
PHR	01 to 08 and 13 to 14 (2)	10 to < 50	0.1

Notes

(1) For values, TCR, tolerance outside of qualified range: Please consult.
(2) PHR 0402: Qualification ongoing.

POPULAR OPTIONS

OPTION 0041

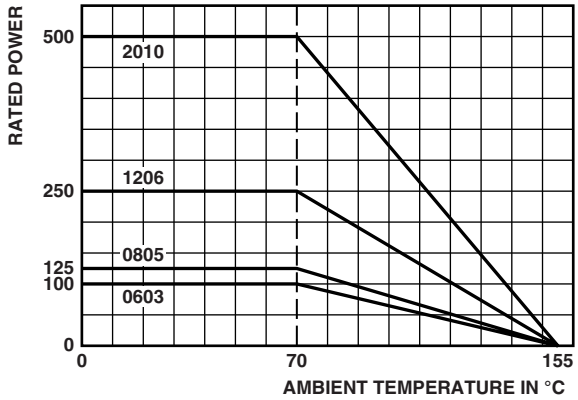
Production according to ESCC 4001/023 for: Cases, ohmic values, tolerance or TCR outside of qualified range. Please consult Vishay Sfernice for feasibility.

PACKAGING				
Two types of packaging are available: waffle-pack and tape and reel.				
SIZE	NUMBER OF PIECES PER PACKAGE			TAPE WIDTH
	WAFFLE PACK 2" × 2"	TAPE AND REEL (3)		
		MIN.	MAX.	
0402	100	50	5000	8 mm
0603				
0805			4000	
1206	140			
2010	60			

Note

(3) MoQ: 50 pieces

POWER DERATING CURVE



EXTENDED FEATURES

You may consult Vishay Sfernice for chip sizes, ohmic values and tolerances outside of the qualified range.

PERFORMANCE

Disclaimer

ALL PRODUCT, PRODUCT SPECIFICATIONS AND DATA ARE SUBJECT TO CHANGE WITHOUT NOTICE TO IMPROVE RELIABILITY, FUNCTION OR DESIGN OR OTHERWISE.

Vishay Intertechnology, Inc., its affiliates, agents, and employees, and all persons acting on its or their behalf (collectively, “Vishay”), disclaim any and all liability for any errors, inaccuracies or incompleteness contained in any datasheet or in any other disclosure relating to any product.

Vishay makes no warranty, representation or guarantee regarding the suitability of the products for any particular purpose or the continuing production of any product. To the maximum extent permitted by applicable law, Vishay disclaims (i) any and all liability arising out of the application or use of any product, (ii) any and all liability, including without limitation special, consequential or incidental damages, and (iii) any and all implied warranties, including warranties of fitness for particular purpose, non-infringement and merchantability.

Statements regarding the suitability of products for certain types of applications are based on Vishay’s knowledge of typical requirements that are often placed on Vishay products in generic applications. Such statements are not binding statements about the suitability of products for a particular application. It is the customer’s responsibility to validate that a particular product with the properties described in the product specification is suitable for use in a particular application. Parameters provided in datasheets and/or specifications may vary in different applications and performance may vary over time. All operating parameters, including typical parameters, must be validated for each customer application by the customer’s technical experts. Product specifications do not expand or otherwise modify Vishay’s terms and conditions of purchase, including but not limited to the warranty expressed therein.

Except as expressly indicated in writing, Vishay products are not designed for use in medical, life-saving, or life-sustaining applications or for any other application in which the failure of the Vishay product could result in personal injury or death. Customers using or selling Vishay products not expressly indicated for use in such applications do so at their own risk. Please contact authorized Vishay personnel to obtain written terms and conditions regarding products designed for such applications.

No license, express or implied, by estoppel or otherwise, to any intellectual property rights is granted by this document or by any conduct of Vishay. Product names and markings noted herein may be trademarks of their respective owners.

Material Category Policy

Vishay Intertechnology, Inc. hereby certifies that all its products that are identified as RoHS-Compliant fulfill the definitions and restrictions defined under Directive 2011/65/EU of The European Parliament and of the Council of June 8, 2011 on the restriction of the use of certain hazardous substances in electrical and electronic equipment (EEE) - recast, unless otherwise specified as non-compliant.

Please note that some Vishay documentation may still make reference to RoHS Directive 2002/95/EC. We confirm that all the products identified as being compliant to Directive 2002/95/EC conform to Directive 2011/65/EU.

Vishay Intertechnology, Inc. hereby certifies that all its products that are identified as Halogen-Free follow Halogen-Free requirements as per JEDEC JS709A standards. Please note that some Vishay documentation may still make reference to the IEC 61249-2-21 definition. We confirm that all the products identified as being compliant to IEC 61249-2-21 conform to JEDEC JS709A standards.
