Snagless Pre-Plugs

Identify your unshielded twisted-pair (UTP) systems with color-coded Snagless Pre-Plugs.

FEATURES

» Quickly organizes your patch systems—
   makes relocating workstations a breeze.

» Eleven colors to choose from—
   many combinations possible.

OVERVIEW

Snagless Pre-Plugs enable you to easily identify different categories of cabling—and department and system applications—via a simple color-coding method.

Color-coding makes moving and troubleshooting less of a puzzle, since one application can be easily differentiated from another.

Attach Snagless Pre-Plugs before you terminate RJ-45 plugs. They keep the connectors from snagging when you pull the cable through tight spaces. Snagless Pre-Plugs cannot be removed after termination.

Each bag includes 50 plugs or boots of the same color.

TECH SPECS

Connectors — Fits over an RJ-45 connector
Weight — < 0.1 lb. (< 0.1 kg)

Item	Code
Snagless Pre-Plugs (Pack of 50)

White	**FMT723**
Purple	**FMT724**
Pink	**FMT734**
Beige	**FMT735**
Orange	**FMT736**

Why Buy From Black Box? Exceptional Value. Exceptional Tech Support. Period.

Recognize any of these situations?

• You wait more than 30 minutes to get through to a vendor's tech support.

• The so-called "tech" can't help you or gives you the wrong answer.

• You don't have a purchase order number and the tech refuses to help you.

• It's 9 p.m. and you need help, but your vendor's tech support line is closed.

According to a survey by *Data Communications* magazine, 90% of network managers surveyed say that getting the technical support they need is extremely important when choosing a vendor. But even though network managers pay anywhere from 10 to 20% of their overall purchase price for a basic service and support contract, the technical support and service they receive falls far short of their expectations—and certainly isn't worth what they paid.

At Black Box, we guarantee the best value and the best support. You can even consult our Technical Support Experts before you buy if you need help selecting just the right component for your application.

Don't waste time and money—call Black Box today.
