SAW Components

SAW duplexer

WCDMA band VIII

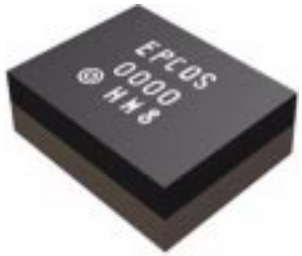
Series/type:	**B8606**
Ordering code:	**B39941B8606P810**
Date:	May 02, 2013
Version:	2.0

EPCOS AG is a TDK Group Company.

Data sheet SMD

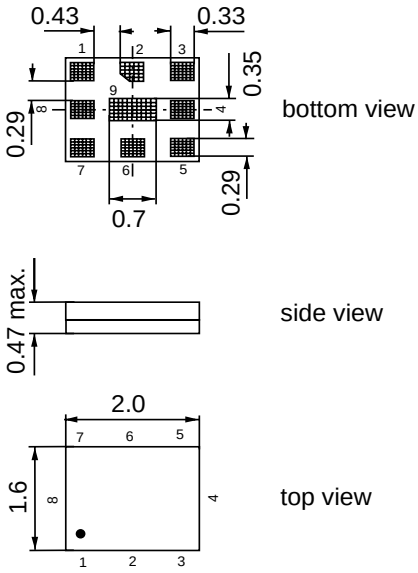
Application

- Low-loss SAW duplexer for mobile telephone WCDMA Band VIII systems
- Low insertion attenuation
- Low amplitude ripple
- Usable passband 35 MHz
- 50 Ω single-ended in both in Antenna-Rx and Tx-Antenna paths



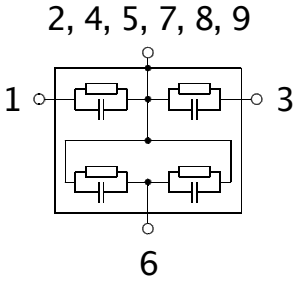
Features

- Package size 2.0 x 1.6mm²
- Max. package height 0.47mm
- RoHS compatible
- Approx. weight 0.006g
- Package for **S**urface **M**ount **T**echnology (**SMT**)
- Ni, Au-plated terminals
- **E**lectrostatic **S**ensitive **D**evice (**ESD**)
- **M**oisture **S**ensitive **L**evel 3



Pin configuration

■	3	Rx output (single-ended)
■	1	Tx input (single-ended)
■	6	Antenna
■	2,4,5,7,8,9	Ground



Characteristics

Temperature range for specification: T = –20 ˚C to +85 ˚C
Ant terminating impedance: Z_{Ant} = 50 Ω || 7.5 nH
Tx terminating impedance: Z_{Tx} = 50Ω
Rx terminating impedance: Z_{Rx} = 50Ω

Characteristics Tx - Ant					min.	typ. @25 ˚C	max.	
Center frequency				f_C	—	897.5	—	MHz
Maximum insertion attenuation								
@$f_{Carrier}$	882.4	... 912.6	MHz	α_{WCDMA} 1)	—	2.0	2.6	dB
	880.4	... 914.6	MHz		—	2.3	3.8	dB

5725.0 ... 5875.0 MHz			30	38	—	dB
IMD Product Level Limit[1)]						
at f_{Tx}=897.5 MHz, f_{Rx}=942.5 MHz						
Blocker 1	45.0	MHz	—	-126	-117	dBm
Blocker 2	852.5	MHz	—	-109	-100	dBm
Blocker 3	1840.0	MHz	—	-111	-100	dBm
Blocker 4	2737.5	MHz	—	-111	-103	dBm

1) IMD product level limits for power levels P_{Tx}=21dBm (antenna port output power) and $P_{Blocker}$=-15dBm (antenna port input power)

Characteristics

Temperature range for specification: T = –20 ˚C to +85 ˚C
Ant terminating impedance: Z_{Ant} = 50 Ω || 7.5 nH
Tx terminating impedance: Z_{Tx} = 50Ω
Rx terminating impedance: Z_{Rx} = 50Ω

Charcteristics Tx - Rx					min.	typ. @25 ˚C	max.	
Isolation								
@$f_{Carrier}$	882.4 ...	912.6	MHz	α_{WCDMA} [1)]	55	61	—	dB
	880.0 ...	915.0	MHz		50	60	—	dB
	880.0 ...	915.0	MHz		55 [2)]	60	—	dB
@$f_{Carrier}$	927.4 ...	957.6	MHz	α_{WCDMA} [3)]	50	54	—	dB

1) Attenuation of WCDMA signal (“Powertransferfunction”). Please refer to annotation on page 8.
2) T= +25˚C

Maximum ratings

Storage temperature range	T_{stg}	–40/+85[1)]	˚C	
DC voltage	V_{DC}	5[2)]	V	
ESD voltage	V_{ESD}	100[3)]	V	Machine Model
Input power at	P_{IN}			
880.0 ... 915.0 MHz		29	dBm	} continuous wave 50 ˚C, 5000 h
elsewhere		10	dBm	

1) extended upperlimit: 168h@125˚C acc. to IEC 60068-2-2 Bb
2) 168h Damp Heat Steady State acc. to IEC 60068-2-67 Cy
3) acc. to JESD22-A115B (MM - Machine Model), 10 negative & 10 positive pulses.

Annotation for characteristics section

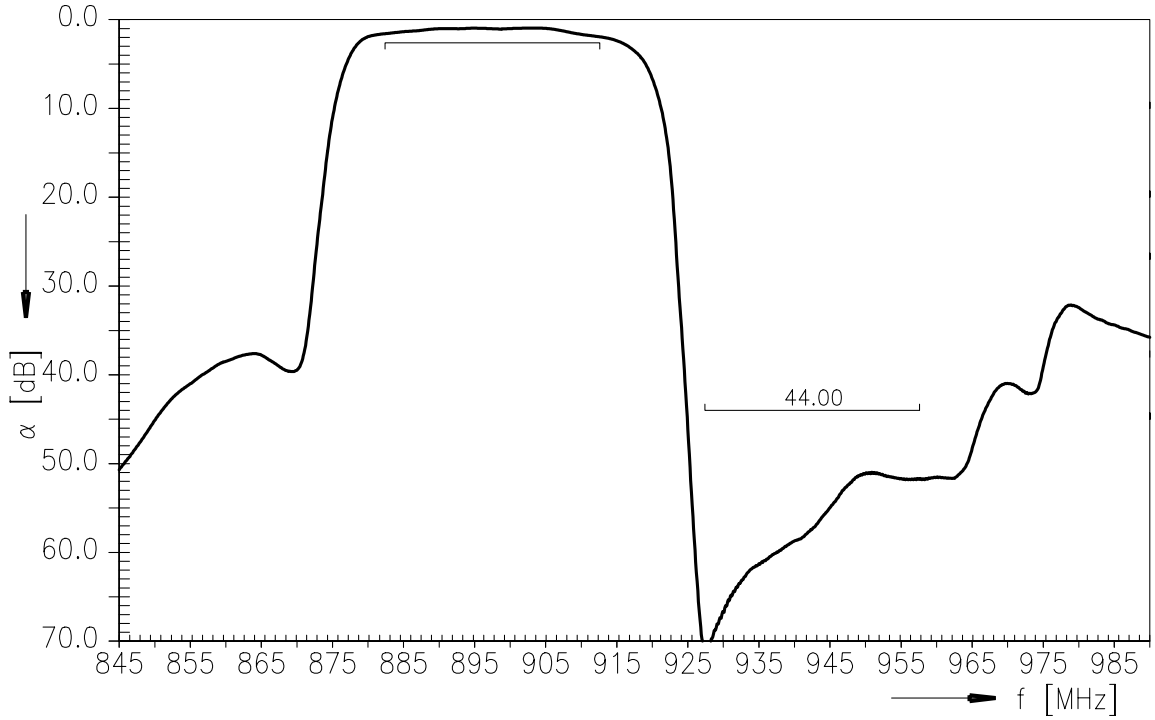
Attenuation of WCDMA signal (“Powertransferfunction”, α_{WCDMA}) is determined by

$$\int_{\infty}^{\infty} \left| S_{ds21}(f) H_{RRC}(f - f_{Carrier}) \right|^2 df$$

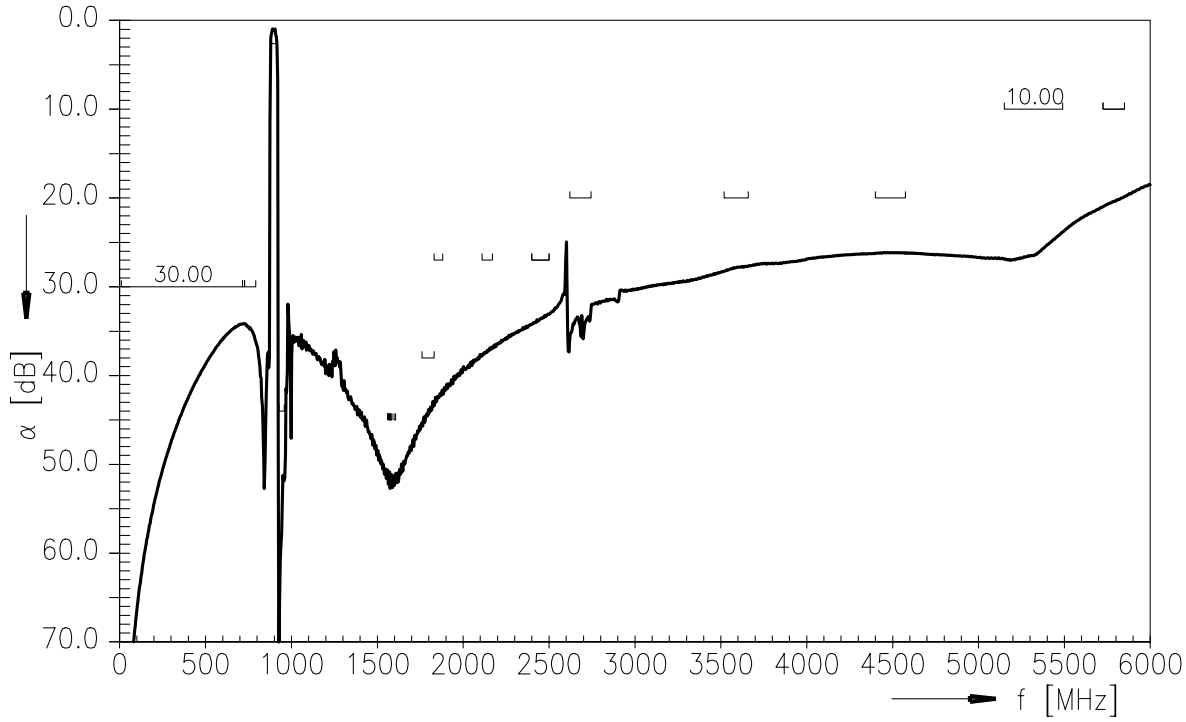
$f_{Carrier}$ according to 3GPP TS 25.101 (e.g. for UMTS-Passband, $f_{Carrier}$ ranges from 2112.4 MHz (lowest Rx channel) to 2167.6 MHz (highest Rx channel)). $H_{RRC}(f)$ is the transfer function of the root-raised cosine transmit pulse shaping filter according to 3GPP TS 25.101 with the following normalization:

$$\int_{\infty}^{\infty} \left| H_{RRC}(f) \right|^2 df = 1$$

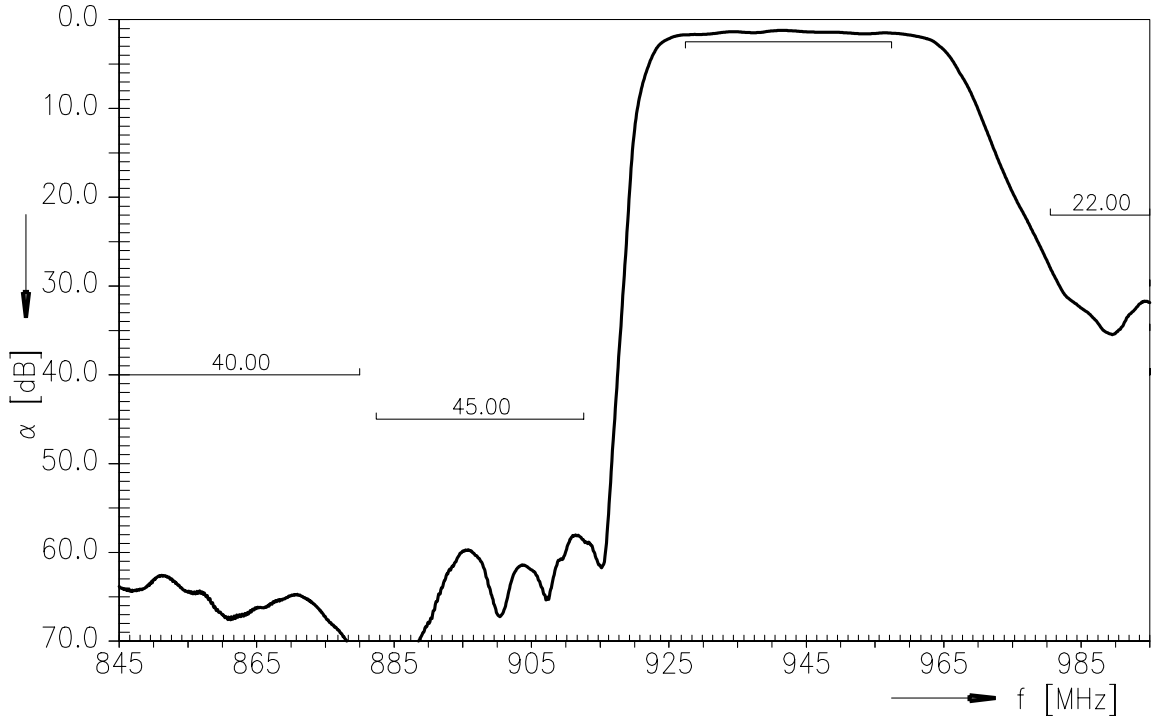
Frequency response Tx-Antenna (Power transfer function)



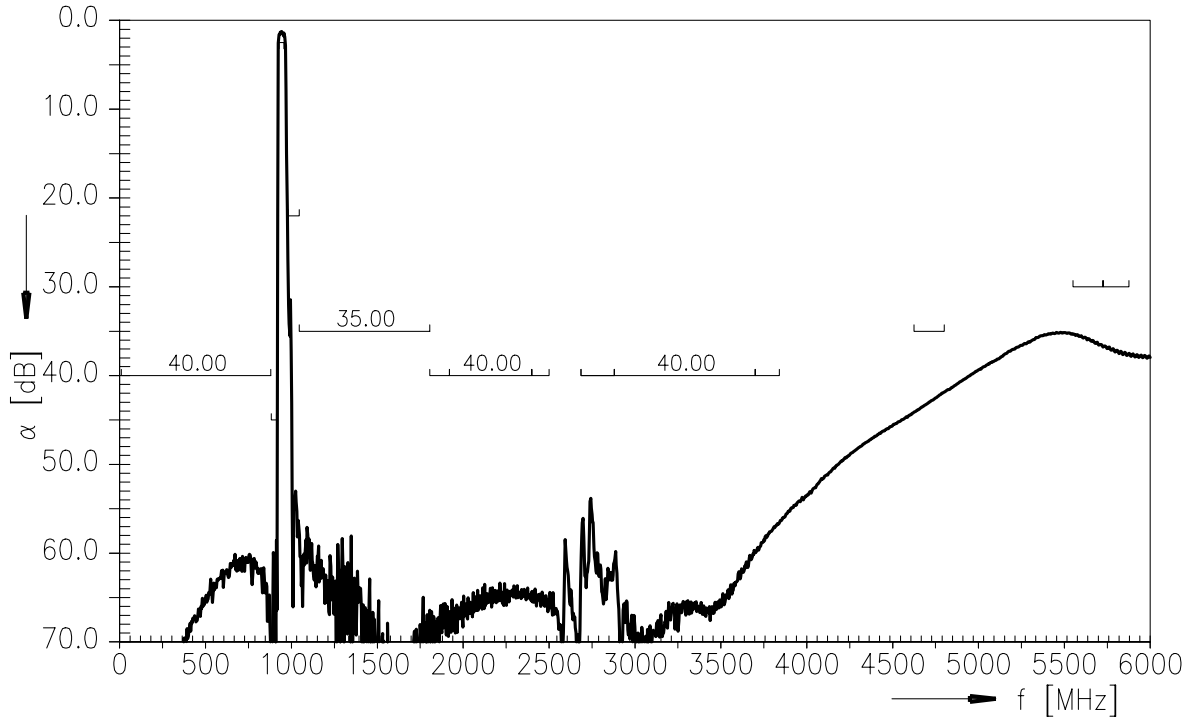
Frequency response Tx-Antenna (wideband)



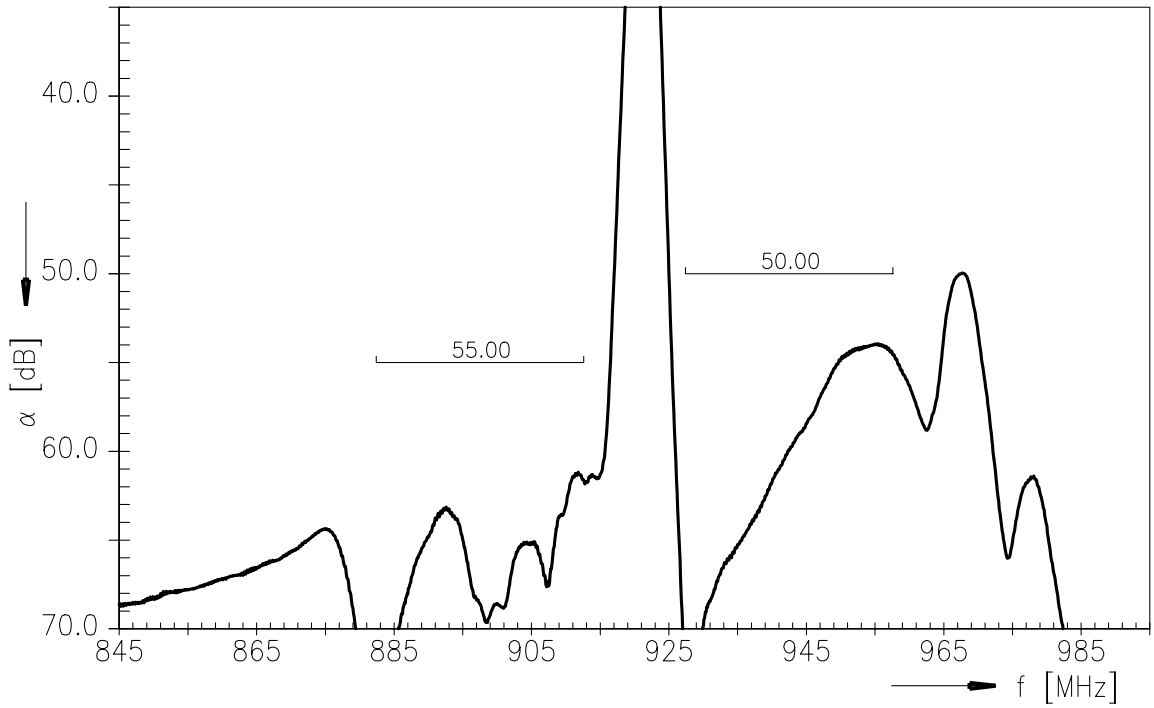
Frequency response Antenna-Rx (Power transfer function)



Frequency response Antenna-Rx (wideband)



Frequency response Tx-Rx (Power transfer function)



Frequency response Tx-Rx (wideband)

Type	B8606
Ordering code	B39941B8606P810
Marking and package	C61157-A8-A38
Packaging	F61074-V8247-Z000
Date codes	L_1126
S-parameters	B8606_NB_UN.s3p, B8606_WB_UN.s3p See file header for pin/port assignment.
Soldering profile	S_6001
RoHS compatible	RoHS-compatible means that products are compatible with the requirements according to Art. 4 (substance restrictions) of Directive 2011/65/EU of the European Parliament and of the Council of June 8th, 2011, on the restriction of the use of certain hazardous substances in electrical and electronic equipment ("Directive") with due regard to the application of exemptions as per Annex III of the Directive in certain cases.
Moldability	Before using in overmolding environment, please contact your EPCOS sales office.
Matching coils	See Inductor pdf-catalog http://www.tdk.co.jp/tefe02/coil.htm#aname1 and Data Library for circuit simulation http://www.tdk.co.jp/etvcl/index.htm

For further information please contact your local EPCOS sales office or visit our webpage at www.epcos.com .

For questions on technology, prices and delivery please contact the Sales Offices of EPCOS AG or the international Representatives.

Due to technical requirements components may contain dangerous substances. For information on the type in question please also contact one of our Sales Offices.

Important notes

The following applies to all products named in this publication:

1. Some parts of this publication contain **statements about the suitability of our products for certain areas of application**. These statements are based on our knowledge of typical requirements that are often placed on our products in the areas of application concerned. We nevertheless expressly point out **that such statements cannot be regarded as binding statements about the suitability of our products for a particular customer application.** As a rule, EPCOS is either unfamiliar with individual customer applications or less familiar with them than the customers themselves. For these reasons, it is always ultimately incumbent on the customer to check and decide whether an EPCOS product with the properties described in the product specification is suitable for use in a particular customer application.
2. We also point out that **in individual cases, a malfunction of electronic components or failure before the end of their usual service life cannot be completely ruled out in the current state of the art, even if they are operated as specified.** In customer applications requiring a very high level of operational safety and especially in customer applications in which the malfunction or failure of an electronic component could endanger human life or health (e.g. in accident prevention or life-saving systems), it must therefore be ensured by means of suitable design of the customer application or other action taken by the customer (e.g. installation of protective circuitry or redundancy) that no injury or damage is sustained by third parties in the event of malfunction or failure of an electronic component.
3. **The warnings, cautions and product-specific notes must be observed.**
4. In order to satisfy certain technical requirements, **some of the products described in this publication may contain substances subject to restrictions in certain jurisdictions (e.g. because they are classed as hazardous)**. Useful information on this will be found in our Material Data Sheets on the Internet (www.epcos.com/material). Should you have any more detailed questions, please contact our sales offices.
5. We constantly strive to improve our products. Consequently, **the products described in this publication may change from time to time**. The same is true of the corresponding product specifications. Please check therefore to what extent product descriptions and specifications contained in this publication are still applicable before or when you place an order.
   We also **reserve the right to discontinue production and delivery of products**. Consequently, we cannot guarantee that all products named in this publication will always be available. The aforementioned does not apply in the case of individual agreements deviating from the foregoing for customer-specific products.
6. Unless otherwise agreed in individual contracts, **all orders are subject to the current version of the "General Terms of Delivery for Products and Services in the Electrical Industry" published by the German Electrical and Electronics Industry Association (ZVEI)**.
7. The trade names EPCOS, BAOKE, Alu-X, CeraDiode, CeraLink, CSMP, CSSP, CTVS, DeltaCap, DigiSiMic, DSSP, FilterCap, FormFit, MiniBlue, MiniCell, MKD, MKK, MLSC, MotorCap, PCC, PhaseCap, PhaseCube, PhaseMod, PhiCap, SIFERRIT, SIFI, SIKOREL, SilverCap, SIMDAD, SiMic, SIMID, SineFormer, SIOV, SIP5D, SIP5K, ThermoFuse, WindCap are **trademarks registered or pending** in Europe and in other countries. Further information will be found on the Internet at www.epcos.com/trademarks.
