

FIBER OPTICS

DATASHEET | FEBRUARY 2016

Applications

- CWDM Forward Path
- Broadcast and Narrowcast Networks
- CWDM Cuts New Fiber Costs
- High Optical Splits

Features

- OC-48 Pinout Compatible
- *Telcordia Technologies*[™] 468 Compliant
- Up to 79 Channel Count
- Up to 20 mW
- Wide Temperature Range Stable even in Harsh Environments

The 1622A/B ITU G.695 compliant CWDM forward path DFB laser components are designed for both broadcast and narrowcast analog applications. The highly linear, OC-48 pinout compatible components feature options for up to 20 mW of minimum optical output power with superior distortion performance over an enhanced temperature range of -40° C to $+85^{\circ}$ C.

Absolute Maximum Ratings

Stresses in excess of the absolute maximum ratings can cause permanent damage to the device. These are absolute stress ratings only. Functional operation of the device is not implied at these or any other conditions in excess of those given in the operational sections of the data sheet. Exposure to absolute maximum ratings for extended periods can adversely affect device reliability.

In order to prevent reflection-induced distortion, the laser must be connected to an optical cable having a return loss of at least 55 dB for discrete reflections and 30 dB for distributed reflections.

⁽¹⁾ Distortion performance assumes 0km dispersion.

Laser Safety

This product meets the appropriate standard in Title 21 of the Code of Federal Regulations (CFR). FDA/CDRH Class 1 laser product. This device has been classified with the FDA/CDRH under accession number 0220191.

All Versions of this laser are Class 1 laser product, tested according to IEC 60825-1:2014/EN 60825-1:2014

Single-mode fiber pigtail with SC/APC connectors (standard).

Wavelength = 1.3 μ m.

Maximum power = 50 mW.

Because of size constraints, laser safety labeling (including an FDA class 1 label) is not affixed to the module, but attached to the outside of the shipping carton.

Product is not shipped with power supply.

Caution: Use of controls, adjustments and procedures other than those specified herein may result in hazardous laser radiation exposure.
