

FHZ SERIES 5 STUD ZCASE® FUSE HOLDERS

400A • 32V DC • 5 Stud • ZCASE®

5 Stud Assembled with Fuses

*Fuses sold separately

Description

The 5 Stud ZCASE Fuse Holder is a configurable product designed to do primary high current power distribution. It uses a power input terminal usually paired with a ZCASE shunt for the input. With a common bussed power, configurable studs (choose M6, M8, or M10) and appropriate ZCASE fuses a wide variety of configurations is possible. The dust covers keep dust out of the backside of the fuse box and the cover protects the fuses from debris.

Applications

- Construction Equipment
- Agricultural Equipment
- Body Builders
- HD/MD Truck

Features and Benefits

- High Current Distribution with Flexible bussing and configurable stud sizes to improve assembly Poka Yoke
- Midi range ZCASE fuses (40A-200A) and Mega range ZCASE Fuses (80A-600A) can be used in any location, so no dedicated locations improving flexibility
- Corrosion resistant coatings
- Stainless steel nuts can be applied with high speed nut runners
